

Money against life!

Dictatorship of Money, of State, of financier, of Capital against Workers life and to enslave them

For years there has been delay, cutoff, financial and political manipulation, robbery and garbing by the government and financier to the wages of workers in Iraq and Kurdistan. In recent years this situation even became worse and heading to general breakdown!

No wages no life!

So the aim of wage deprivation is the destruction of human life!

This deliberate war on wages against workers life has nothing to do with “lack, short, of Money”, or any other common blame games and propagandists, but has everything to do with the “power of Money”, with financial power of the super rich, and their state terror, against workers life and their families (against humanity)!

This war on workers life is a dictatorship of money, a policy of social destruction, a direct financial robbery, a deliberate attack , as in every where, to impose mass poverty and mass killing! It is part of a universal financial trap against humanity, against workers life and their families....

It is a total war of financial power, a gun on the head, against humanity! It is a war on social life! It is a mechanism of robbing workers from their ability to “live” and feed their families! Robbing them and their children from their sources of survival! to kill their capacity to live, their ability to support themselves, to raise their head, to feel that they are “beings” and they are “human ” and able to function socially ! to drive them into desperation, submission, ill-health and starvation. But even worse ! To drive them into

self-destruction, suicidal moods, debit enslavement and their children into all forms of slavery ...

This is not “unfortunate event”, it is not “out of control”, but **it is a clear plan** and financial(class) attack, not just to grab workers and their children life and enrich their **financial asserts** by, but to **drive entire population into destruction**, disperse , starvation , mass murders,.. into the hand of criminal financiers, landlords power, servants and slavery.

This attack is a control measure! It is a programmable attack! It is %100 under their control and carryout by their order for their interest! It play by their roles and deliberate calculation!

This is how they create their wealth, power and privilege and drive us into their enslavement!

The **financial power group** from USA, EU, UN, IMF, Baghdad , PDK, PUK and their Lords, ... which are in charge of Iraqi government, of financial polices and Money circulations, and directly planing and imposing this attack , are in charge of this class war against workers life! This attacks is a coordinated part of present global financial war against humanity!

This global war is a dominate very aggressive policy of capital worldwide for the benefit of upper class and elimination of workers life!

Their plan is to take everything for themselves and leave nothing for you! Their plan is to rob you, your children and grandchildren, from your life, and give you ill health and starvation, pain, position, humiliation and slavery in replace, and drive you to your coffin while you still alive (if even your family able to buy one for you!!)...

The plan is to own everything between themselves, and turn everything into money, control and power! More wealth, power, privilege for their families with less unwanted people around! with maximum privilege and protection, no cost (that is what robbery is!) and with general obidian to their privilege

and their power (**to whatever they want to do, and however they want to do, with you and your children!**)

They want land, water, all resources, entire planet for their families (with whatever number of servants and workers they may wish to have, but not humans, not social population, not independent life ! That is their plan...

Financier and Lords are in power in Iraq and Kurdistan. They are in charge of this attack on public life and carryout this robbery against workers life for themselves and their masters ...

Deprivation of life, accelerating public poverty, enriching financier, accumulating of wealth and tingeing the superiority of money over life, capital over humanity, is the main driving force behind this organize financier terror against humanity!

Dictatorship of Money against human life is a power behind this governmental war on global scale!

So the enemy is not far, it is the super riches! It is a global power and those who has been in power for generation in Iraq and Kurdistan are active part and in service of that international power !

From the top to the bottom, from the bottom to the top, this global power, this capital system is our enemy! Their wealth , power and privilege is the force of our deprivation and inhumanity!

Their wealth, power, pleasure and privilege is their dictatorship against our life!

**Down with dictatorship of Money
down with power, superiority and privilege
Down with class society
long live human community**
